

All you need to know

*about ballooning, how we
make your flight memorable*

Rising above it all

Fulfil the ambition of a lifetime, experiencing a bird's eye view while slowly drifting across the landscape enjoying the magnificent experience of hot air ballooning. For a unique birthday present, anniversary gift or special treat, rise above it all! Buy one of our flexible vouchers which are valid for 12 months and book a flight.

A Magic carpet ride

Our aim is to give everyone a pleasant, enjoyable and safe flight. Ballooning is an adventure, a magic carpet ride, something not to be rushed. The flight will last for about one hour, the whole outing usually takes between 3 and 4 hours. We fly in the late afternoon or evening and soon after dawn to take advantage of the stable air and light winds found at these times of the day. We do not fly if it is raining or very windy. The main flying season is March to October, however, "Exclusive" flights are available throughout the year.

Where do we go?

Ballooning, like serendipity, is the art of making happy and unexpected discoveries by chance.

Where we go is entirely dependent upon the wind. No two flights are the same. The average distance we travel is ten miles, affording you stunning views of the surrounding scenery.

Come prepared!

Age is no barrier to enjoying this spectacular journey, our passengers ages range from nine to ninety! We provide a friendly, personal service. Passengers may like to help lay out and launch the balloon or simply leave this to our ground crew. For your safety and comfort we suggest you wear outdoor clothing suitable for the time of year. A balloon basket is a brilliant platform for photography, bring a camera or camcorder, plenty of memory and a spare battery!

The Champagne celebration!

Chilled Champagne or orange juice is served with our compliments. Each passenger receives a commemorative flight certificate signed by the pilot. An in-flight photograph can be purchased as a lasting memento. Our experienced retrieve crew meet us on landing and will return you to the launch site.
